Independent activities

What children enjoyed the most

"It has been amazing to allow the child(ren) to be independent, in a safe environment interacting with other children of like ability without judgement. They feel so proud making things independent from home".

Family Activities

What children enjoyed the most

"Mixing with others has really improved her ability to be in a group - turn taking, listening to instructions, and learning what is and is not acceptable behaviour in a group away from the home or school setting".

Family Support

What parents enjoyed the most

"It has saved my life and mental health and my kids. Just by being somewhere we can go as a family and have that support so I can spend time one to one with my other kids".
